Subject: CLARIFICATION ABOUT HUMAN PAPILLOMA VIRUS (HPV) VACCINATION IN KHYBER PAKHTUNKHWA

In reference to the phased rollout of the national HPV vaccination campaign, it is hereby clarified that Khyber Pakhtunkhwa is scheduled to initiate HPV vaccine administration in 2026, as per the Federal Directorate of Immunization's national timeline.

It has come to our attention that certain schools have begun prematurely seeking parental consent for HPV vaccination, despite the campaign not yet being operational in this province. This has led to avoidable confusion and concern among parents and school administrators.

To ensure procedural clarity and uphold public trust, the following instruction may be issued

1. All educational institutions in KP may be instructed to refrain from soliciting consent for HPV vaccination until formal notification of campaign commencement is issued by the Provincial EPI DGHS Khyber Pakhtunkhwa in coordination with the Federal Directorate of Immunization.
2. All Schools may be advised to coordinate exclusively with designated health officials for future vaccine-related activities. No independent action should be taken without prior approval from the Provincial EPI DGHS.

Moreover, you are requested to disseminate this advisory to all public and private schools under your jurisdiction. This measure is intended to prevent misinformation, safeguard institutional credibility, and ensure a smooth and coordinated rollout of the HPV vaccination campaign in 2026. In case of any further information please contact following HPV Focal Person of Khyber Pakhtunkhwa.
